GENERAL CIRCULAR LETTER 565—NOVEMBER 3, 2010

TO: Members of the Bureau
FROM: Kay Higgins
RE: New Web Tool—Part/Nature/Cause

WCRB is pleased to announce the addition of the Part/Nature/Cause Web product found in the Member Products area of the WCRB Web site. The purpose of this tool is to provide our members with a Web based application that will allow for search, display, and comparison of the Part of Body, Nature of Injury, and Cause of Injury loss data across class codes and accident years. Users will also be able to compare their data to aggregated industry averages.

The data provided in this application is obtained directly from the Unit Statistical Reports received from member companies with policy effective dates of 1-1-99 to current. Data on the queries is grouped by claim amounts under \$5,000, claim amounts \$5,000-\$25,000, and claim amounts over \$25,000. Single or multiple years of exposure and loss data can be analyzed. There are multiple display options available for viewing the results of queries. Query results can be printed or downloaded and saved in an XML file.

The intended use of this information is for loss control, underwriting, and benchmarking against the industry.

If you have any questions regarding this Web tool, contact Kay Higgins at 262-796-4570, or via e-mail at kay.higgins@wcrb.org.
