CDX[®] ANNOUNCEMENT
August 15, 2013

TO: CDX[®] PEEP Users

FROM: CDX[®] Management

RE: Reminder: PEEP[®]—Policy Entry and Edit Package will be discontinued
December 31, 2014

This is a reminder that Policy Entry and Edit Package (PEEP[®]) will no longer be available after December 31, 2014. Please also refer to a previous announcement that was sent out as a circular by the DCOs in October 2012. Note that only PEEP[®] is being discontinued. This will have no impact on other CDX[®] products, and direct file transfer of WCPOLS files through CDX[®] will also be unaffected.

Carriers must plan a course of action for creating WCPOLS data to send to each DCO well in advance of the discontinuation of the PEEP[®] application. The PEEP[®] database in CDX[®] will also be discontinued, so carriers should archive any policy data that they want to retain from the database prior to December 31, 2014. A guide to archiving PEEP[®] data is in the PEEP[®] User Guide, which is available from the left menu on the CDX[®] login page.

Please watch for announcements regarding WCPOLS creation alternatives being developed by individual DCOs.
