GENERAL CIRCULAR LETTER 632—SEPTEMBER 23, 2015

TO: Members of the Bureau

FROM: Donna Knepper

RE: WCRB Web Product Enhancement
Class Code Historical Performance (CCHP)

The Class Code Historical Performance product on the WCRB Web site has been enhanced to allow users to conduct a regional search of the data. The data provided are payroll, modified premium, incurred indemnity, incurred medical, total claims, loss ratio and frequency ratio. The user will also be able to produce aggregate reports based on region or the entire state.

The Regional Class Code Search provides the ability to view data for a selected classification code in predetermined regions within the state of Wisconsin. Regions consist of one or more postal zip codes. Postal zip code data used in this application is "as reported" by the carriers. The results provided in the regional search **exclude** data related to policies reported to Wisconsin with an out of state mailing address and those reported to Wisconsin with multiple non-primary WI locations.

The flat file that will be provided will give the user the ability to create unique reports using the aggregate data contained within CCHP.
